## Education

- 2011–2016 **Master in Computer Science**, *National Institute of Applied Sciences, Rouen.*  
Algorithms, Software Engineering, Networks, Databases, UML
- 2011 **Baccalauréat**, *Lycée Jean Giraudoux, Châteauroux, Honours.*  
High school diploma in science

## Experience

- 2014–2015 **Developer, Admin Sys**, *INVOKE - INSA de Rouen.*  
○ Developed a SVG charts creation library in ISO 9001:2008 certified project  
○ Designed the software with UML, managed continuous integration systems  
○ Programmed in C++, compiled in JavaScript with the Emscripten compiler  
○ Managed the team systems, server and network access  
**Team work — Quality management — Software design**
- Summer 2015 **Software Engineer Intern**, *Siraga SA.*  
○ Familiarized with microcontroller programming  
○ Created a communication library between Microchip Pic18 and MIPEX infrared gas sensor  
○ Took part in the card design process  
○ Produced and tested a prototype in the workshop  
**Autonomy — Industrial computing awareness**
- 2013–2015 **Project Manager**, *Quantic Telecom.*  
○ Grew from 0 to 600+ members to become France's largest non-profit Internet Service Provider  
○ Managed projects wiring and connecting several building to our network  
○ Designed network architectures, installed antennas in weird and unexpected places  
**Communication — Thinking outside of the box — Personnal investment**

## Skills

- |                     |  |                  |  |
|---------------------|--|------------------|--|
| Programming         | ○ C, C++, Java<br>○ HTML5, CSS3, Javascript & PHP basics<br>○ Interested in Haskell and Python | Languages        | ○ French (native language)<br>○ English (fluent - TOEIC 930/990)<br>○ Spanish (school level) |
| Systems & Softwares | ○ Linux (Ubuntu, ArchLinux)<br>○ Vim, Git, Docker, NginX, Eclipse                              | Software Quality | ○ Continous integration<br>○ Code reviews<br>○ Test coverage                                 |

## Interests

- |            |   |
|------------|---|
| IT eve     | Staying aware of what's going on in the industry by reading numerous amount of blogs posts and tweets |
| OpenSource | Using opensource softwares and contributing to the community  |
| Music      | Composing and recording songs, performing live with my band   |
